## PERSONAL PROJECTS

### CRIME DATA ANALYSIS
- **Technology Used: Jupyter Notebook**
- To show the basic working of data warehouse and data mining. I have analyzed the criminal data of INDIA from 2001-2012. Downloaded csv file from data.world website which consists of 8610 rows and 32 rows. I have used this data to show the graphical representation of crime rate according to State-wise, Year-wise and District-wise of India.

### BANK MANAGEMENT SYSTEM
- **Technology Used: Netbeans IDE 8.2 and MySQL**
- An application to depict the basic working of the banks. I have used NetBeans to form an interactive user friendly application and MySQL to store the data of the Customers (Account Holder), Bank Manager and Bank Staff.
